Product description

High-quality hand pallet truck with extra long 200 cm forks, with which 2 Euro pallets can be picked up lengthwise and driven away in one go. The large steering wheels make the pallet truck easy to turn: maneuver pallets easily and lightly from A to B. The comfortable handle manually controls the lifting, driving and lowering of the pump truck. The torsion-free frame is made of sturdy steel construction and highly wear-resistant powder coating. Polyurethane tandem load wheels: high quality, comfortable and quiet. The tandem rollers perform particularly well on uneven surfaces and when picking up pallets transversely, this also ensures easier handling and minimal point load. Load capacity up to 2000 kg.

- Load capacity (kg): 2000
- Pump type: standard
- RAL colour: RAL1003 (signal yellow)
- Minimum height (mm): 80
- Lifting height (mm): 200
- Length of the forks (mm): 2000
- Width over the forks (mm): 540
- Number of fork wheels: 4
- Material of the fork wheels: polyurethane
- Material of the steering wheel: polyurethane
- Material of the pallet truck: steel
- Material of the pump: cold galvanized steel (cast)

Specifications

Article arrangement: New
Version: lifting height 80-200 mm
Wheels front: polyurethane (steering wheel)
Colour: yellow
Surface treatment: painted
Internal length (mm): 2000
Height (mm): 1220
Application: hand pallet truck

Type: extra long fork length 2000 mm
Material: steel
Wheels back: polyurethane (tandem)
Ral colour: 1003
Length (mm): 2400
Width (mm): 540
Loading capacity (kg): 2000
Weight (kg) 102
