Product description

Save now and invest in volume. Offer consisting of 2 pallet trucks.

High quality Kruizinga.nl hand pallet truck, reliability for the best price. The large steering wheels make the pallet truck extremely easy to turn: maneuver pallets easily and lightly from A to B. The comfortable handle controls the lifting, driving and lowering of the pump truck manually. The torsion-free frame is made of sturdy steel construction and highly wear-resistant powder coating. Polyurethane tandem load wheels: high quality, comfortable and quiet. The tandem rollers perform particularly well on uneven surfaces and when picking up pallets transversely, this also ensures easier handling and minimal point load. Load capacity up to 2500 kg.

Space between the 2 forks: 220 mm

Specifications

Article arrangement: New

Version: parcel offer

Wheels front: polyurethane (steering wheel)

Colour: yellow
