

Technical information

Productnumber : 37-0001-W

Product description

Polypropylene container with a capacity of 225 litres. This drip tray can accommodate one 200 liter steel or plastic drum. The drip tray is fitted with a grid.

Guideline for storage and temporary storage for drip trays with regard to fire safety, occupational safety and environmental safety in accordance with PGS 15 (publication series of hazardous substances):

A storage facility must be constructed in such a way that leaked or spilled hazardous liquid falls into a container is collected. To this end, the collection container must have a capacity of at least 110% of the largest package. However, if 10% of the total content of the packages is more than 110% of the content of the largest package, then the collection capacity must be equal to 10% of the total content of the packages together. The collection container must be sufficiently resistant to the stored liquids.

The collection capacity only applies to liquids. Empty, uncleaned packaging does not count. The collection facility may also be realized in storage. The choice of location for the collection facility may depend on the hazardous liquids stored. Kruizinga.nl is not liable for the type of use!

Please note! Any form of modification is not allowed. If this is the case, all regulations will lapse.

Specifications

Article arrangement: New
Version: for 1x 200 l drum
Walls: walls closed
Subgroup: Plastic trays
Length (mm): 900
Height (mm): 525
Volume (ltr): 225
Type number: 37-0001

Type: Retention Basin
Material: polypropylene
Floor: oil- and water tight
Colour: blue
Width (mm): 700
Loading capacity (kg): 300
Weight (kg) 22
EAN Code (Gtin) 8719424173772
