

Productnumber: 716NBS4R1660

Product description

Galvanized steel nestable roll container with 2 swivel (braked) and 2 fixed rubber wheels. These wheels are made of elastic rubber and offer excellent driving comfort. The roll container is equipped with a door. Thanks to the a-frame undercarriage, several roll containers can be compactly slid into each other. The door is hinged against one of the side walls. These side walls are pivotally folded inwards. This saves you considerable space during storage and transport.

Specifications

Article arrangement: New Version: A-nestable

Walls: mesh

Wheels front: 2 castor wheels solid rubber with wheel locks 125 mm

Wheels back: 2 fixed wheels, solid rubber 125 mm

Surface treatment: electro-galvanized

Internal length (mm): 673 Internal width (mm): 769 Internal height (mm): 1428 Application: excl. levels

Additional specifications: rubber wheels with wheel locks
