Product description

Pallet undercarriage as tugger train. This roller platform is made of robust welded profile steel treated with a scratch-free powder coating. The undercarriage rests on two swivel castors with brakes and two fixed castors (200*50). The load capacity is 1000 kg. The roller platform is equipped with a self-locking drawbar made of flat steel on the fixed wheel side, which can be operated with the foot, and automatically returns to the rest position by means of a gas pressure spring. On the castor side there is a stable coupling bolt with guide mouth and an independent safety lock. This coupling system guarantees the best possible track fidelity. The tractor must have front-wheel steering and a tugger train drawbar! Maximum 5 undercarriages in a train. Maximum train speed 6 km/h. Maximum towing weight 3,000 kg.
