Product description

TÜV certified bin cabinet consisting of a new shelf rack (type 55) including 63 used steel storage bins (art.nr 98-7102GB). LxWxH: 500x310x200 mm.

The Kruizinga house brand shelf rack of high quality has a load capacity of 210 kg per shelf and is very suitable for shopfitting, workshop, archive or office. The rack is very easy to assemble thanks to the clamp-click-ready system. Made of high-quality galvanized steel and with numerous available accessories, it can be used very flexibly. A storage rack with a TÜV certificate or TÜV quality mark is confirmation that a storage rack meets requirements set by legislation, standards and quality marks.

A used 25-liter storage bin made of painted steel is a rugged storage container widely used in warehouses, workshops and industrial environments.

The painted steel construction makes the bin durable and resistant to wear and tear, making it suitable for harsh conditions. Designed with sturdy stacking edges, allowing for easy and safe stacking. This allows efficient use of available space, keeping the warehouse organized and uncluttered. The grab opening on the front of the bin makes it easy to quickly access the contents even when the bins are stacked. This is useful for order picking and quickly finding needed items in the warehouse. Both the handle at the back and the grip bar at the top facilitate handling and moving the storage bins. This contributes to efficient logistics and transportation of goods within the warehouse or between different locations. Suitable for industries such as logistics, manufacturing, and distribution, where streamlined storage and easy access to materials are essential for efficient operations.

This combination set can easily be expanded with additional add-on rack with bins (art.nr CS-55-7102-AB) and accessories such as; label holders, labels, step stool/stairs or additional stacking bins.

Specifications

Article arrangement: New

Version: shelving rack including 63 storage bins

Food-safe: no

Colour: colorless

Width (mm): 3120

Height (mm): 2000

Capacity: 200 kg per shelf

Type: combination kit

Material: Storage bin steel

Subgroup: Combination set

Surface treatment: galvanized

Internal width (mm): 1000

Depth (mm): 500

Options: TÜV certified
