Product description

Use nestable reusable storage bins with stacking handle for your storage, shipping and order picking tasks. The Euro bins are suitable for automatic and manual destination control.

Practical closed handles on both sides of the bins simplify manual handling.

You can stack several multi-use containers without lids on top of each other using the stacking brackets.

Flip up the stacking brackets and you can place another stacking container on top.

Combined with robust construction, many returnable bins can be stacked on top of each other without becoming unstable.

When you want to store the empty return bins, put the stacking brackets in the normal position. This allows you to stack the conical space-saving bins together to save space. The Euro returnable bins have the dimensions 600 x 400 x 323 mm, a volume of 58 liters and is resistant to common acids and bases.

Specifications

Article arrangement: New

Version: with collapsible stacking brackets

Walls: walls closed

Food-safe: yes

Colour: brown

Length (mm): 600

Width (mm): 400

Height (mm): 323

Volume (ltr): 58

Temperature resistance: -10°C tot +60°C

EAN Code (Gtin) 8719424230178

Type: nestable and stackable

Material: polypropylene

Floor: closed

Euronorm (mm): 600 x 400

Ral colour: 8016

Internal length (mm): 530

Internal width (mm): 360

Internal height (mm): 315

Type number: 38-CS

Additional specifications: suitable for food industry
