Technical information

Productnumber : 98-7224GB

Product description

Used 600x400x190 mm stacking bin. The perforated design offers several advantages, it allows air and moisture to circulate, which is useful for storing materials that need to remain breathable. The polypropylene material provides durability and lightness. The open handles on the short sides make it easy to handle and move the bin. The dimensions of this stacking bin comply with the Euronorm of 600x400, which means they are standardised to European standards. This standard ensures that the bins are compatible with various storage systems, pallets and means of transport that also comply with the same standard, enabling seamless integration and interchangeability in logistics chains and warehouse environments.

Specifications

Article arrangement: Used

Version: walls + floor perforated

Walls: open handles

Food-safe: no

Colour: black

Length (mm): 600

Width (mm): 400

Height (mm): 190

Volume (ltr): 28

Type number: 7224GB

Type: stackable

Material: polypropylene

Floor: perforated

Euronorm (mm): 600 x 400

Surface treatment: signs of use

Internal length (mm): 580

Internal width (mm): 380

Internal height (mm): 130

Weight (kg) 2

EAN Code (Gtin) 8719424234909
