Product description

Used stacking rack measuring 920x1320x1340 mm, made of steel and finished in green paint. Thanks to its four castors, two of which have brakes, this rack offers flexibility of movement. The two swivel castors with brakes and two rubber fixed-wheel castors, each 125 mm in diameter, ensure stability and ease of movement. The brakes on the swivel castors provide extra safety when positioning the rack, while the fixed castors contribute to stability once the rack is in place. Includes four 42.4 mm diameter stanchions, allowing items to be safely anchored.
