## Technical information Productnumber : 98-1319GB-V-PAL

## **Product description**

Pallet offer consisting of 70 used warehouse containers with a capacity of 25 liters made of hot-dip galvanized steel. A robust storage container widely used in warehouses, workshops and industrial environments. The zinc coating provides an effective barrier against corrosive elements such as moisture and oxygen, significantly extending the life of the treated metal. This makes the storage bins suitable for harsh conditions. Designed with sturdy stacking edges, making them easy and safe to stack on top of each other. This allows efficient use of available space, keeping the warehouse organized and uncluttered. The grab opening on the front of the bin makes it easy to quickly access the contents even when the bins are stacked. This is useful for order picking and quickly finding needed items in the warehouse. Both the handle at the back and the grip bar at the top facilitate handling and moving the storage bins. This contributes to efficient logistics and transportation of goods within the warehouse or between different locations. Suitable for industries such as logistics, manufacturing, and distribution, where streamlined storage and easy access to materials are essential for efficient operations.

## Specifications

Article arrangement: Used Version: grip opening Walls: closed + grab opening Food-safe: no Length (mm): 500 Width (mm): 310 Height (mm): 200 Volume (ltr): 25 Type number: 98-1319 EAN Code (Gtin) 8719424117530
