Productnumber : 89-30156025

Product description

Plastic waste bin with 3 compartments with insertion opening on a foot. By using different colors per compartment for the lid, a solution can be offered for every waste problem and every location.

The content of this waste bin is 3x50 litres. This rubbish bin is made of 100% recycled plastic (LLDPE) and is resistant to all cleaning products and all weather conditions (-30/+70°C). The compartments have a ribbed structure on the outside to prevent the application of posters, stickers or graffiti. The inside is completely smooth and has no seams, making it easy to clean. The post and fasteners are made of galvanized steel. This waste bin is characterized by its fashionable and ergonomic round shape. It therefore has no sharp edges so that no injuries can be sustained during waste depositing or emptying. The rounded hood ensures that no waste can be placed on it and no rainwater can enter the waste bins. The bins are easy to unlock with the triangular key supplied as standard. The bottom tray tilts forward without falling out through the brackets at the bottom. Each waste compartment is equipped with 5 handles: 1 at the front, 2 at the back and 2 at the bottom. This makes emptying very easy for both left and right handed people.

Dimensions foot: 290x290x10 mm (lxwxh)

Specifications

Article arrangement: New

Version: with 3 compartments on foot

Subgroup: Outdoor waste bins

Length (mm): 600

Height (mm): 1350

Type number: 89-301

EAN Code (Gtin) 8719424139150

Type: plastic waste bin

Material: LLDPE

Colour: grey/blue/orange

Width (mm): 600

Volume (ltr): 150

Temperature resistance: -30/+70°C
