Technical information

Productnumber : 99-848GB

Product description

Steel waste container in 120 litre version. The container is fully hot-dip galvanised, very robust and made for heavy-duty work. The container is particularly suitable for flammable or oily waste. Also called mini-container, mobile container, otto or clicker. Flame retardant.

If you order more than one waste container, they are delivered nested with loose wheels and axles (easy to assemble yourself).

Please note! Contains a dent in the side.
