Product description

Used waste bin, measuring 790x820x1130 mm and holding 400 litres. Thanks to the four rubber swivel castors, two of which have brakes and a diameter of 150 millimetres, the bin is easy to move, even on uneven terrain. The comb-over system makes it easy to empty the bin. The drain with stopper offers the possibility to drain liquids easily, making the bin also suitable for collecting liquid waste. The double handle at the front makes it easy to manoeuvre the bin, while the lid ensures hygienic and discreet closure of the contents.
